- Mount the screws if necessary, with liquid screw protection.

Care and servicing:

To reach a long live span of our chromium-plated articles they should be cleaned regularly and be treated with customary chrome care means.

With powder coated articles a regular cleaning is important. Damages (e.g. by rockfall) can be mended with colour.

By both versions we recommend about the winter the spraying or rubbing with corrosion protection oil or silicone.

All fixing bolts must be checked at regular intervals (max. 6 months).

We wish you a lot of joy and accident-free journey with our motorcycle accessories.
