Mounting instruction:

- Press the lamella plugs into the tube ends.
- Remove the original screws from the upper mounting.
- Unscrew the plastic plugs from the lower attachment.
- Loosely pre-assemble the protection guard with the listed mounting parts.
- The distance tubes are fitted between the guard and the frame at the lower mounting point.
- Align the protection guard and screw it on tightly.

- Torques for bolts and nuts like from the manufacturer given
If not given: 4 M: 3 Nm - M of 5: 5,9 Nm - M of 6: 10 Nm - M of 8: 25 Nm - M of 10: 49 Nm - M of 12: 85 nm).
- Mount the screws, if necessary, with liquid screw protection.

Care and servicing:

To reach a long live span of our chromium-plated articles they should be cleaned regularly and be treated with customary chrome care means.

With powder coated articles a regular cleaning is important. Damages (e.g. by rockfall) can be mended with colour.

By both versions we recommend about the winter the spraying or rubbing with corrosion protection oil or silicone.

All fixing bolts must be checked at regular intervals (max. 6 months).

We wish you a lot of joy and accident-free journey with our motorcycle accessories.
